

GLOBAL MACRO INTELLIGENCE REPORT

Commodity, Metals, Agriculture, Forex and Equity Intelligence

Generated: 2026-07-16 09:21

This report combines commodity, precious metals, industrial metals, agriculture, livestock, foreign exchange, fixed income and equity market intelligence into a unified macroeconomic dashboard.

Executive Dashboard

Macro Score: 4.7

Risk Score: 5.3

Top Opportunities

1. Copper (Industrial Metals) Score=8.37
2. Tin (Industrial Metals) Score=7.17
3. Dow Jones (Equities) Score=7.17
4. Soybeans (Agriculture) Score=6.99
5. NASDAQ (Equities) Score=6.89
6. Nickel (Industrial Metals) Score=6.73
7. WTI Crude (Energy) Score=6.57
8. S&P; 500 (Equities) Score=6.39
9. Coffee (Agriculture) Score=6.11
10. Zinc (Industrial Metals) Score=6.09

Report Highlights

- Commodity-focused macro strategy
- Precious metals inflation hedge
- Agriculture momentum opportunities
- Industrial metals growth indicators
- Equity and Forex monitoring dashboard

Market Commentary

GLOBAL MACRO INTELLIGENCE SUMMARY

Top Opportunities:

- Copper (Industrial Metals) Score 8.37
- Tin (Industrial Metals) Score 7.17
- Dow Jones (Equities) Score 7.17
- Soybeans (Agriculture) Score 6.99
- NASDAQ (Equities) Score 6.89

Commodity markets remain supported by inflationary pressures.
Industrial metals continue to indicate resilient economic activity.
Agricultural markets remain firm led by Soybeans and Coffee.
The US Dollar remains elevated and should be monitored closely.

Trade Ideas

The following opportunities are generated from spread analytics, relative value relationships and macroeconomic conditions.

Trade Idea	Signal	Reason
Long WTI Crude	Bullish	Oil stronger than Natural Gas
Long Soybeans	Bullish	Soybeans stronger than Corn
Long Coffee	Bullish	Coffee outperforming Sugar
Long Beef	Bullish	Beef stronger than Pork

Energy Markets

Energy markets are among the most important drivers of inflation, transportation costs and industrial activity. WTI Crude reflects global oil demand while Natural Gas remains a key input for power generation and manufacturing.

Asset	Value
WTI Crude	79.2
Natural Gas	2.83

Precious Metals

Precious metals provide inflation protection, portfolio diversification and safe-haven characteristics. Gold and Silver remain the primary monetary metals, while Platinum and Palladium are heavily influenced by industrial demand.

Asset	Value
Gold	0.0
Silver	0.0
Platinum	0.0
Palladium	0.0

Industrial Metals

Industrial metals often serve as leading indicators of manufacturing activity and economic growth. Copper remains one of the most closely watched indicators of global industrial demand.

Asset	Value
Copper	13552.04090909091
Aluminum	3438.847272727273
Nickel	17588.28545454545
Zinc	3538.742727272727
Lead	1946.368636363636
Tin	53036.54545454545
Iron Ore	103.7909090909091

Agriculture Markets

Agricultural commodities are essential to global food security, livestock feed production and biofuels. Soybeans, Corn and Wheat remain the most actively monitored agricultural benchmarks globally. Coffee, Sugar and Cotton provide insight into soft commodity trends.

Asset	Value
Corn	195.7818789965986
Wheat	199.6482875619048
Soybeans	426.3281568183153
Cotton	86.29318181818182
Sugar	35.5
Coffee	307.8263636363636
Rice	400.0
Barley	122.5665769562634

Livestock Markets

Livestock markets reflect protein demand, feed costs, agricultural profitability and consumer spending trends. Beef and Pork remain key livestock indicators.

Asset	Value
Beef	346.3847402597403
Pork	88.79821821939393
Milk	4.317
Poultry	2.044
Eggs	2.141

Equity Markets

Equity markets provide a broad indication of economic growth, liquidity conditions and investor sentiment. NASDAQ remains the leading technology benchmark globally. The S&P; 500 reflects broad US corporate performance, while the Dow Jones tracks industrial leadership. VIX measures expected market volatility.

Asset	Value
S&P 500	7572.4
NASDAQ	26269.23
Dow Jones	52658.64
VIX	16.5

Foreign Exchange Markets

Currency markets influence global trade flows, commodity pricing, inflation and capital allocation. The US Dollar Index remains one of the most influential macroeconomic indicators globally. Monitoring major currency pairs helps identify shifts in economic and monetary policy trends.

Asset	Value
USD/INR	95.33
USD/JPY	161.31
EUR/USD	1.1438
GBP/USD	1.3421
USD/CNY	6.7766
USD/CHF	0.8063

Spread Analytics

Spread analytics identify relative value opportunities across commodities, currencies and fixed income. These relationships often highlight emerging trends before they become visible in outright prices.

Spread	Value	Signal
Oil/Gas Ratio	27.99	Bullish Oil
Wheat/Corn Ratio	1.02	Relative Value
Soybean/Corn Ratio	2.18	Bullish Soybeans
Cotton/Corn Ratio	0.44	Relative Value
Coffee/Sugar Ratio	8.67	Bullish Coffee
Rice/Corn Ratio	2.04	Relative Value
Beef/Pork Ratio	3.9	Bullish Beef
Copper/Aluminum Ratio	3.94	Industrial Strength
Nickel/Zinc Ratio	4.97	Industrial Strength
10Y-2Y Spread	0.4	Positive Yield Curve
30Y-10Y Spread	0.5	Yield Curve
EURUSD/GBPUSD	0.85	FX Relative Value

Top 20 Opportunities

Opportunity scores combine macroeconomic conditions, relative strength, spread relationships and market momentum. Higher scores indicate stronger risk/reward profiles.

Asset	Category	Score	Reason
Copper	Industrial Metals	8.37	Positive Momentum
Tin	Industrial Metals	7.17	Neutral
Dow Jones	Equities	7.17	Neutral
Soybeans	Agriculture	6.99	Positive Momentum
NASDAQ	Equities	6.89	Neutral
Nickel	Industrial Metals	6.73	Neutral
WTI Crude	Energy	6.57	Strong Relative Strength
S&P 500	Equities	6.39	Neutral
Coffee	Agriculture	6.11	Positive Momentum
Zinc	Industrial Metals	6.09	Neutral
Aluminum	Industrial Metals	6.08	Neutral
Beef	Livestock	5.91	Constructive Setup
Lead	Industrial Metals	5.85	Neutral
KRW/USD	Forex	5.74	Neutral
Rice	Agriculture	5.22	Neutral
Inflation	Macro	5.14	Neutral
Wheat	Agriculture	4.94	Neutral
Corn	Agriculture	4.93	Neutral
Stainless Steel Wire	Macro	4.89	Neutral
USD/JPY	Macro	4.86	Neutral

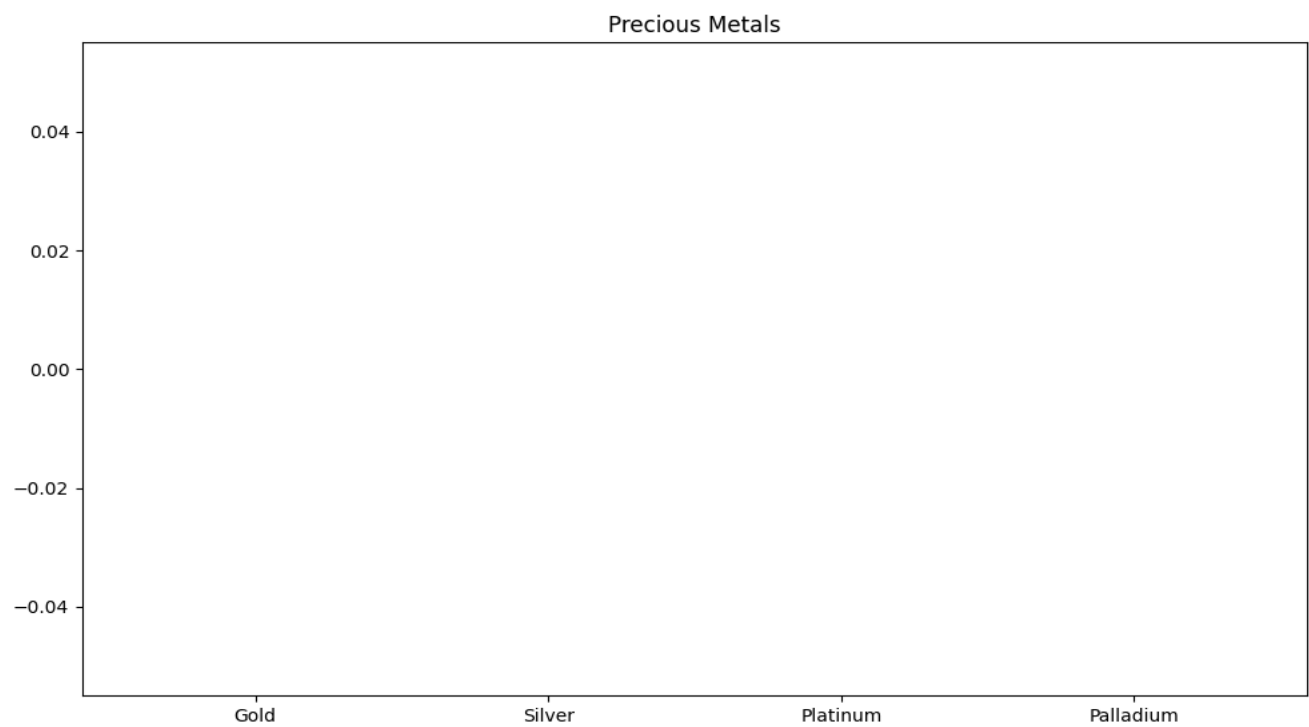

Portfolio Allocation Model

Asset Class	Suggested Allocation
Precious Metals	20%
Industrial Metals	15%
Agriculture	15%
Energy	15%
Equities	20%
Forex	10%
Cash	5%

Strategic Recommendations

Precious Metals

Gold and Silver continue to provide diversification and inflation protection.

Industrial Metals

Copper and Nickel remain important indicators of economic growth.

Agriculture

Soybeans, Coffee and Rice remain among the strongest agricultural markets.

Energy

Monitor WTI Crude and Natural Gas for inflationary pressure signals.

Equities

NASDAQ continues to lead technology and growth exposure.

Forex

Monitor the US Dollar Index for global liquidity trends.

Precious Metals Reference

Metal	Typical Unit
Gold	USD per troy ounce
Silver	USD per troy ounce
Platinum	USD per troy ounce
Palladium	USD per troy ounce

Precious metals are quoted in USD per troy ounce. Gold is commonly used as an inflation hedge and safe-haven asset. Silver serves both investment and industrial demand. Platinum and Palladium are heavily utilized in automotive, manufacturing, and industrial applications.

Asset Definitions & Units Reference

The following reference table describes the standard market units used throughout this report. These units help interpret commodity, financial market, currency, and macroeconomic indicators.

Asset	Typical Unit
WTI Crude	USD per barrel
Natural Gas	USD per million BTU (MMBtu)
Copper	USD per metric ton
Aluminum	USD per metric ton
Nickel	USD per metric ton
Zinc	USD per metric ton
Lead	USD per metric ton
Tin	USD per metric ton
Iron Ore	USD per metric ton
Stainless Steel Wire	PPI Index (Dec 2010 = 100)
Corn	USD per metric ton
Wheat	USD per metric ton
Soybeans	USD per metric ton
Rice	USD per metric ton
Barley	USD per metric ton
Cotton	US cents per pound
Sugar	US cents per pound
Coffee	US cents per pound
Beef	US cents per pound
Pork	US cents per pound
Poultry	USD per pound
Eggs	USD per dozen
Milk	USD per gallon

S&P 500	Index points
NASDAQ	Index points
Dow Jones	Index points
VIX	Volatility Index points
2Y Treasury	Percent yield (%)
10Y Treasury	Percent yield (%)
30Y Treasury	Percent yield (%)
USD/INR	INR per USD
JPY/USD	JPY per USD
EUR/USD	USD per EUR
GBP/USD	USD per GBP
CHF/USD	CHF per USD
CAD/USD	CAD per USD
KRW/USD	KRW per USD
AUD/USD	USD per AUD
US Dollar Index	Index points
Fed Funds Rate	Percent (%)
Unemployment	Percent (%)
Inflation (CPI)	CPI Index Level

The following table summarizes representative benchmark prices and standard trading units for critical metals and minerals monitored by the Global Macro Intelligence Platform.

Asset	Representative Price	Typical Unit
Gold	US\$4,076.82	USD per Troy Ounce
Silver	US\$59.18	USD per Troy Ounce
Platinum	US\$1,615.00	USD per Troy Ounce
Palladium	US\$1,188.00	USD per Troy Ounce
Copper	~US\$9,900	USD per Metric Ton
Aluminum	~US\$2,550	USD per Metric Ton

Carbon Credits (California)	~US\$39	USD per Metric Ton CO ₂

Global Agricultural, Food and Plantation Commodities

Agricultural commodities form the backbone of global food security, international trade, and inflation monitoring. The Global Macro Intelligence Platform tracks major cereals, pulses, oilseeds, plantation crops, spices, fruits, vegetables, livestock, seafood, dairy products, forestry products, and dry fruits to provide a comprehensive view of worldwide agricultural markets. These commodities are influenced by seasonal production cycles, weather patterns, geopolitical developments, export restrictions, consumer demand, supply chain disruptions, and global trade flows. Monitoring these assets enables better assessment of food inflation, commodity price volatility, supply shortages, and long-term macroeconomic trends affecting governments, businesses, and investors.

Asset	Representative Price	Typical Unit
Chickpeas (Gram)	~US\$720	USD per Metric Ton
Lentils	~US\$690	USD per Metric Ton
Green Gram (Moong)	~US\$980	USD per Metric Ton
Black Gram (Urad)	~US\$940	USD per Metric Ton
